FAQs

Is this a course at Fuqua? Yes, students earn 6 credit hours (graded), which is equivalent to two traditional electives. Fuqua faculty provide classroom training and customized project team review meetings. Students also receive additional support from a second year student advisors that we call “Fellows”.

How is a scope determined? You will provide a preliminary description in the application. This information will be used to market your project opportunity to our students. If your project is matched with a student team, you will work directly with them to refine and finalize a scope of work early in the spring semester.

Will students travel for the project? For international projects, students often travel to the company or field visit during spring break (in March) which provides about 8 working days. Students cover their own travel expenses; they cannot be paid or directly reimbursed for any expenses.

What are the program fees? Our goal is to develop long-term partnerships in which clients enjoy the benefits of engaging with a talented and motivated team of MBA students while also contributing to their learning experience. Our administrative fee is $10,000 per student team. For non-profit organizations and small businesses (less than $10 million in annual revenue) the administrative fee is $1,000. This administrative fee helps cover a portion of the operational cost of the program.

Are grants available? FCCP considers partial grant requests. The approval process takes into account the size and mission of your organization, as well as the financial need relative to your business unit or operating budget.

When is payment due? There is no cost to apply. Only clients matched with a student team will be issued invoices in December.
